„Garden design made easy“

HELLO CLINKER HELLO BUILDING BLOCKS FOR IDEAS.

Experience the fascination of clinker bricks - not just simple bricks, but the centrepiece of your creative projects. Our clinker bricks are moulded from selected, high-quality clays, dried and then fired at temperatures of up to 1,300 degrees Celsius. The addition of coal during the firing process, salt glaze and reduction firing creates refined surfaces with a dense, sintered structure that is not only durable and longlasting, but also aesthetically pleasing.

Designing with bricks is like playing with the small building blocks you remember from childhood. Everything starts with a brick, and any object can be assembled from these handy building blocks. A bench, for example, can be realised with 80 bricks and a board, as can a garden barbecue, a garden kitchen or a seating area.

HELLO MANY ADVANTAGES:

- **Easy to process.**
- **Made from natural raw materials:** A contribution to your ecological responsibility.
- **Maintenance-free:** No repainting necessary.
- **Unlimited lifespan:** Build once, enjoy for generations.
- **Colourfast:** Does not fade as it is not dyed.
- **Non-flammable:** A safe choice.
- **Frost-proof and resistant to de-icing salt:** Ideal for harsh winters.
- **Acid-resistant:** Durability, even under demanding conditions.
- **Recyclable and sustainable**

HELLO GARDEN DREAM

In the world of garden design, there is a constant search for simpler, faster and, at the same time aesthetically pleasing solutions. HELLO BRICK, the innovative kit system, now offers all garden lovers the opportunity to design their outdoor areas without any prior knowledge.

HELLO BRICK is revolutionising the garden landscape with its brick building kits. Whether a robust barbecue area, a rippling water feature or a fertile raised bed, the secret lies in the HELLO FIX brick adhesive, which replaces tedious bricklaying with simple gluing. This approach not only saves time and labour, but also makes installation fun for the whole family.

The kits come with everything you need. HELLO BRICK comes in three formats - large, medium and small - and all kits can be constructed without cutting. In addition, detailed assembly instructions and, of course, the HELLO FIX adhesive are included. These enable you to get started

straight away. The assembly is very simple: the bricks are laid out according to the arranged according to the instructions and are bonded with the adhesive. Another plus point is the environmentally friendly component of the product, as clinker bricks are not only durable but also reusable.

The HELLO BRICK elements come in two natural, appealing colours that enrich and enhance any garden. The use of these high-quality materials ensures that your garden structures are not only beautiful, but also resistant to the effects of weather and time.

HELLO BRICK is not just a solution for individual projects. Thanks to the compatibility of the various sets, you can expand and develop your garden project year after year. Start with a raised bed and plan to add a cosy bench next year. The flexibility of the system encourages your creativity and allows the garden to grow with your needs.

**"It's so easy
to create a
beautiful
garden"**

**"I can now
work more
easily as a
garden
designer"**

DETAILED ASSEMBLY PLAN / STEP-BY-STEP INSTRUCTIONS

A detailed assembly plan is available to download for each kit, providing you with easy-to-understand instructions which guide you through every step of the construction process, from preparation to the finished project.

SIMPLE STACKING - CHILD'S PLAY

The intuitive design of The HELLO BRICK kits makes it possible for everyone to actively participate in the construction process - simply stack the bricks according to the instructions.

NO CUTTING - ALL FORMATS READY FOR DELIVERY

Each HELLO BRICK kit contains all the required brick formats, ready for use, so that no additional tools or cuts are required.

GLUING INSTEAD OF BRICKING

With The HELLO BRICK system, you can simply glue the clinker bricks with our adhesive mortar, without the need for time-consuming traditional brickwork.

ECOLOGICAL

Compared to bricklaying, HELLO BRICK requires 90% less cement, which protects the environment.

MATERIALS AND TOOLS REQUIRED:

Products from HELLO BRICK:

- HELLO BRICK clinker bricks
- HELLO FIX clinker adhesive
- HELLO BRICK assembly instructions
- HELLO BRICK accessories

Additionally required:

- Spatula or notched trowel

ASSEMBLY INSTRUCTIONS
STEP BY
STEP

IT'S AS SIMPLE AS THAT:

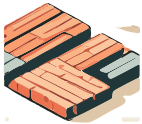

1. Preparation:

- Check all materials supplied against the assembly instructions.
- Make sure that the surface on which you want to build is level and firm.
- Lay out all materials near the installation site.

2. Prepare the foundation:

- The substrate (a load-bearing foundation) must be adapted to the weight of The HELLO BRICK kit and its use. Depending on the location, weight and substrate, this can be a paved surface, a strip foundation or a compacted gravel bed. Do not place the HELLO BRICK kit directly on lawn, as it could become unstable. This depends on the property-specific requirements; if you are unsure, please consult a master builder.

3. Plan arrangement:

- Lay out the first row of bricks dry according to the layout and ensure that everything fits.
- Pay attention to the mould combinations as shown in the plan.

4. Prepare the adhesive:

- Mix the HELLO FIX adhesive according to the instructions on the packaging.
- The adhesive should have a consistent, paste-like form that is easy to work with.

5. Laying clinker bricks:

- Apply the adhesive to the bed and butt joints of the clinker bricks using a spatula.
- Set the bricks firmly into the adhesive.
- Use the spirit level to ensure that all bricks are leveled.
- Start at a corner and work your way forward in layers.

6. Allow to dry:

- Allow the adhesive to dry for two days according to the instructions before loading the structure or adding further elements.

7. Final examination:

- Check all clinker bricks and joints for strength and completeness.
- Clean the surface of the clinker bricks with a hand brush to remove adhesive residues.

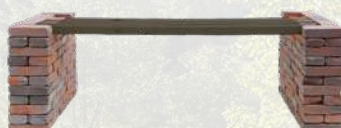

Tips for assembly:

- Do not build in rain or extreme temperatures.
- Keep children and pets away during assembly to avoid accidents.
- In case of interruption, cover fresh masonry against rain with foil.

Parts: 44L/8M/0S

HELLO FIX: 3kg

HELLO BRICK is available in red-blue-colorful and black.

For an affordable start: For the HELLO BRICK

RAISED BED FERDI - WATER FEATURE

The FERDI raised bed can be transformed into a small water feature in no time at all; all you need are a water trough and a fountain pump.

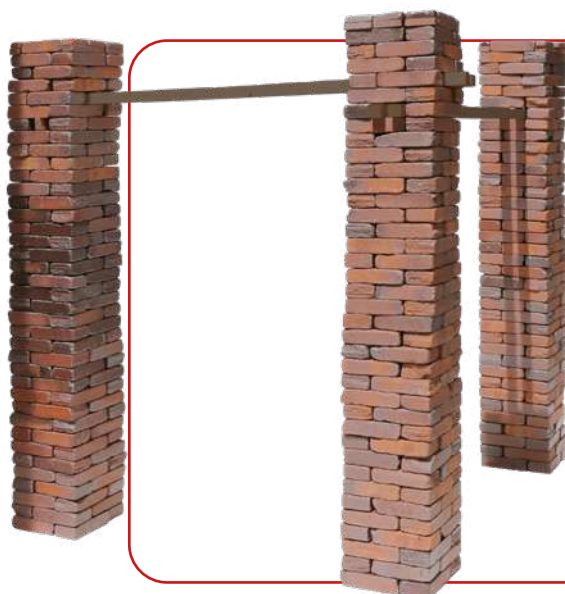

HELLO PRODUCT:

Size: 1040x650x520 mm

Parts: 44L/8M/0S

HELLO FIX: 3kg

HELLO BRICK is available in red-blue-colorful and black.

A shaded or shaded seating area: The HELLO BRICK

PERGOLA AMALIA

offers protection from direct sunlight by providing shade. This can be particularly pleasant on hot days. The pergola can also be used lower in the garden as a fence by using the slats as structure areas.

HELLO PRODUCT:

Size: 3000x3000x2470 mm

Parts: 542L/16M/64S

HELLO FIX: 36kg

HELLO BRICK is available in red-blue-colorful and black.

In addition, you will need:

8x - Wooden slats 60x40x3000 mm

Fruit and vegetables all year round: The HELLO BRICK

EARLY BED

offers many advantages for hobby gardeners. The protected environment allows plants to be grown earlier in the year, as the frame stores the heat and protects against the cold. This allows the plants to grow faster and be harvested earlier.

The frame also protects the plants from pests and diseases as it forms a barrier.

This reduces the need for chemical pesticides and makes growing fruit and vegetables particularly sustainable. The frame can also be used in winter to grow hardy vegetables and herbs. This allows you to extend the gardening season and have fresh fruit and vegetables from your own garden all year round.

Many commercially available covers fit the HELLO BRICK frame.

HELLO PRODUCT:

Size: 1365x780x650 mm

Parts: 140L/0M/40S

HELLO FIX: 10kg

HELLO BRICK is available in red-blue-colorful and black.

The perfect combination: The HELLO BRICK

RAISED BED WITH BENCH

The HELLO BRICK raised bed with integrated bench combines two functions in one element, which is particularly practical in gardens or on terraces. It saves space and makes it possible to grow vegetables or flowers as well as create a cosy seating area.

HELLO PRODUCT:

Size: 3575x1625x585 mm

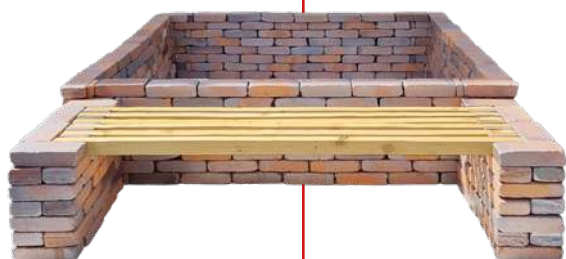

Parts: 369L/19M/122S

HELLO FIX: 28kg

HELLO BRICK is available in red-blue-colorful and black.

In addition, you will need:

6x - Wooden slats 60x40x1365 mm

Good for trees: The HELLO BRICK

RAISED TREE SURROUND

A raised tree disc is often used to protect and promote the root zone of a tree. It offers the following advantages:

1. Protection against mechanical damage: A raised tree disc protects the sensitive roots from damage caused by lawnmowers, weedkillers or pedestrians.

2. Improving the soil structure: By piling mulch or compost on the raised tree disc, the soil around the tree is improved. This promotes root growth and nutrient uptake.

3. Water retention: A raised tree disc helps to keep water in the root zone and improve irrigation efficiency.

4. Aesthetic value: A beautifully designed raised tree disc can visually enhance the garden

In addition, you will need: GARDEN BENCH C200

HELLO PRODUCT:

Size: 2275x2275x520 mm

Parts: 256L/0M/64S

HELLO FIX: 18kg

HELLO BRICK is available in red-blue-colorful and black.

Gardening made easy: The HELLO BRICK

RAISED BED BASIL RECTANGULAR

offers an efficient solution for growing herbs and plants. The better soil quality - the soil is looser, warmer and better aerated - leads to healthier plants and higher yields. Earlier planting makes sense because the soil in the raised bed warms up more quickly and HELLO BRICK clinker bricks store heat very well.

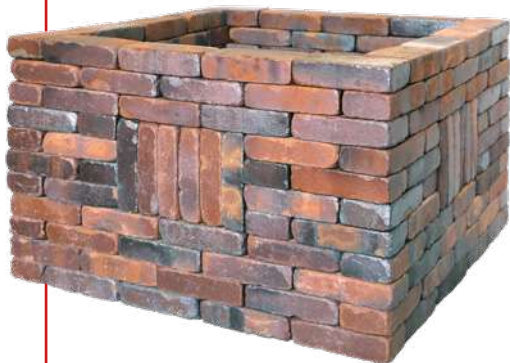

HELLO PRODUCT:

Size: 2210x1170x715 mm

Parts: 256L/16M/0S

HELLO FIX: 15kg

HELLO BRICK is available in red-blue-colorful and black.

For an enjoyable gardening experience: The HELLO BRICK

RAISED BED BASIL SQUARE

allows you to work more comfortably because the raised bed is at waist height and you don't have to bend or kneel to work in it. This makes planting, tending and harvesting much more comfortable and back-friendly. Many practical advantages contribute to a successful and enjoyable gardening experience.

HELLO PRODUCT:
